The Eco Friendly L-Framed Bamboo Banner Stand

The Panda L-Stand™ is a versatile display unit engineered to combine high functionality and low environmental impact.

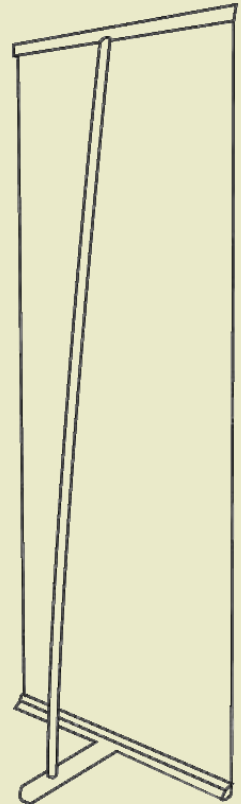

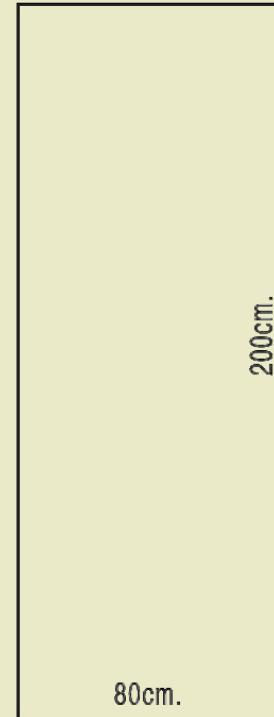

The stylish design features a sturdy, L-shaped bamboo frame that supports base and top graphic-rails via a simple tension system. The Panda L-Stand snaps together in a few minutes and breaks down quickly into a compact, lightweight transportable unit. Cotton-cloth carrying bag is included.

Primarily constructed of bamboo, the Panda L-Stand is a renewable agro-forestry product now finding increased use as an industrial material. As the fastest growing plant on the Planet, bamboo is a viable replacement for wood and metal, and provides a critical component in the balance of oxygen and carbon dioxide in the atmosphere.

Why Bamboo?

- Fastest growing plant on earth with increasing use as a versatile industrial material.
- Rapid maturity cycle of 3-4 years with the viability to replace wood or metal components.
- Provides a critical component in the balance of oxygen and carbon dioxide in the atmosphere.

An Earth-Friendly Alternative to Conventional Display Solutions

Please note that the variety of Bamboo used in this product is plantation grown and not part of the Giant Panda's diet.
